

When we come back to school in September, some things in school are going to be a bit **different** from what we have been used to. This is because we are protecting ourselves from Coronavirus, so we have had to make some changes to **keep everyone safe**.

Social time will be different. We will be in **year group 'bubbles'** that have our break and lunch at different times from each other. This is another change that is helping us to **keep safe**, by not mixing with lots of different people.

We probably won't be able to play on the **activity trail** when we come back to school. It's **closed**, because we can't have lots of people touching the same surfaces.

The way we use the **Peace Room** will also be different. It may be **closed** all or most of the time, or we may be able to use it sometimes, in a different way than we used to.

Another difference in school is that we won't be going to the hall for **assemblies** with the whole school.

This is because we can't get together in large groups at the moment, and **we need to keep our distance from each other**, when we can. Instead, we will sometimes have class assembly, and sometimes year group assembly.

As well as these **changes** that we know about, there are going to be some **differences** that we aren't yet sure about.

Uncertainty can be tricky to deal with. It isn't always easy knowing that something ***might*** happen... but might not.

We've just got to do our best to be **resilient** – one of our 4 Rs!

2020/21 at Wendover Junior School is going to be an exciting challenge. ***We can do this – we're going to have a really good year!***
